CONTENTS

Number 1

T. G. Snider III, K. S. Coats, R. W. Storts, K. F. Graves, C. R. Cooper, P. G. Hoyt, D. G. Luther and B. F. Jenny — 1 Natural bovine lentivirus type 1 infection in Holstein dairy cattle. II. Lymphoid tissue lesions

V. Cuteri, S. Takai, L. Moscati, L. Battistacci, C. Pieramati and C. Valente — 17 A serological survey of *Rhodococcus equi* infection in foals in central Italy: comparison of two antigens using an ELISA test

C. González-Rey, A.-M. Belin, H. Jörbeck, M. Norman, K. Krovacek, B. Henriques, G. Källenius and S. B. Svenson — 25 RAPD-PCR and PFGE as tools in the investigation of an outbreak of beta-haemolytic *Streptococcus* group A in a Swedish hospital

B. Dera-Tomaszewska, J. Wysocki, D. Kunikowska, H. Dziadziuszko and R. Głosnicka — 37 Hsp60 specific antibodies in egg yolks from laying hens naturally infected with *Salmonella enterica* subspecies *enterica* serovar Enteritidis

A. K. Tiwari, R. S. Kataria, Indervesh, N. Prasad and R. Gupta — 47 Differentiation of infectious bursal disease viruses by restriction enzyme analysis of RT-PCR amplified VP1 gene sequence

K. A. Bettelheim, L. Beutin, K. Gleier, J. L. Pearce, R. K. J. Luke and S. Zimmermann — 55 Serotypes of *Escherichia coli* isolated from healthy infants in Berlin, Germany and Melbourne, Australia

P. K. Sahoo and S. C. Mukherjee — 65 Immunomodulation by dietary vitamin C in healthy and aflatoxin B_1-induced immunocompromised rohu (*Labeo rohita*)

Number 2

I. E. Aradaib, W. L. Smith, B. I. Osburn and J. S. Cullor — 77 A multiplex PCR for simultaneous detection and differentiation of North American serotypes of bluetongue and epizootic hemorrhagic disease viruses

T. G. Snider III, P. G. Hoyt, K. S. Coats, K. F. Graves, C. R. Cooper, R. W. Storts, D. G. Luther and B. F. Jenny — 89 Natural bovine lentiviral type 1 infection in Holstein dairy cattle. I. Clinical, serological, and pathological observations

J. E. Foley, C. M. Leutenegger, J. Stephen Dumler, N. C. Pedersen and J. E. Madigan — 103 Evidence for modulated immune response to *Anaplasma phagocytophila* sensu lato in cats with FIV—induced immunosuppression

T. Ishikawa, K. Shibuya, K. Yasui, K. Mitamura and S. Ueda — 115 Expression of hepatitis C virus core protein associated with malignant lymphoma in transgenic mice

K. Ohishi, R. Zenitani, T. Bando, Y. Goto, K. Uchida, T. Maruyama, S. Yamamoto, N. Miyazaki and Y. Fujise — 125 Pathological and serological evidence of *Brucella*—infection in baleen whales (Mysticeti) in the western North Pacific

H. Ungar-Waron, R. Yagil, J. Brenner, R. Paz, N. Partosh, C. Van Creveld, E. Lubashevsky and Z. Trainin — 137 Reactions of peripheral blood mononuclear cells (PBMC) of camels with monoclonal antibodies against ruminant leukocytes

Number 3

G. Donelli, C. Fiorentini, P. Matarrese, L. Falzano, R. Cardines, P. Mastrantonio, D. W. Payne and R. W. Titball — 145 Evidence for cytoskeletal changes secondary to plasma membrane functional alterations in the in vitro cell response to *Clostridium perfringens* epsilon-toxin

A. Menon, M. L. Shroyer, J. L. Wampler, C. B. Chawan and A. K. Bhunia — 157 In vitro study of *Listeria monocytogenes* infection to murine primary and human transformed B cells

J. Bu, Y. Song, G. Rompato, D. J. Burgess and A. E. Garmendia — 175 Co-delivery of IL-2 or liposomes augment the responses of mice to a DNA vaccine for pseudorabies virus IE180

A. M. Levy, I. Davidson, S. C. Burgess and E. D. Heller — 189 Major histocompatibility complex class I is downregulated in Marek's disease virus infected chicken embryo fibroblasts and corrected by chicken interferon

P. Swain, S. K. Nayak, A. Sahu, P. K. Meher and B. K. Mishra — 199 High antigenic cross-reaction among the bacterial species responsible for diseases of cultured freshwater fishes and strategies to overcome it for specific serodiagnosis

Number 4

G. M. Bhopale — 213 Pathogenesis of toxoplasmosis

A. B. Macura, A. Macura-Biegun and B. Pawlik — 223 Susceptibility to fungal infections of nails in patients with primary antibody deficiency

L. M. Pinchuk, B. L. Boyd, E. F. Kruger, I. Roditi and A. Furger — 233 Bovine dendritic cells generated from monocytes and bone marrow progenitors regulate immunoglobulin production in peripheral blood B cells

H. M. Wagner, U. B. R. Balasuriya and N. J. MacLachlan — 251 The serologic response of horses to equine arteritis virus as determined by competitive enzyme-linked immunosorbent assays (c-ELISAs) to structural and non-structural viral proteins

G. P. Rai, K. Zachariah, R. Sharma, S. Phadke and K. M. Belapurkar — 261 Pneumococcal antigen detection in cerebrospinal fluid: a comparative study on counter immunoelectrophoresis, latex agglutination and coagglutination

J. Hostetter, E. Steadham, J. Haynes, T. Bailey and N. Cheville — 269 Phagosomal maturation and intracellular survival of *Mycobacterium avium* subspecies *paratuberculosis* in J774 cells

285 Patents ALERT

Numbers 5/6

C. Pilet — 289 Editorial

H. Bazin — 291 Introduction

H. Bazin — 293 A brief history of the prevention of infectious diseases by immunisations

H. Takahashi — 309 Antigen presentation in vaccine development

C. LECLERC — 329 New approaches in vaccine development

P.-P. PASTORET and A. VANDERPLASSCHEN — 343 Poxviruses as vaccine vectors

A.-L. PUAUX and M.-L. MICHEL — 357 New gene-based approaches for an AIDS vaccine

H. J. DEAN, D. FULLER and J. E. OSORIO — 373 Powder and particle-mediated approaches for delivery of DNA and protein vaccines into the epidermis

P. B. CARTER and L. E. CARMICHAEL — 389 Modern veterinary vaccines and the Shaman's apprentice

P. BINDER, O. ATTRE, J. P. BOUTIN, J. D. CAVALLO, T. DEBORD, A. JOUAN and D. VIDAL — 401 Medical management of biological warfare and bioterrorism: place of the immunoprevention and the immunotherapy

A. MAYR — 423 Smallpox vaccination and bioterrorism with pox viruses

J. BLANCOU and J. E. PEARSON — 431 Bioterrorism and infectious animal diseases

445 Patents ALERT
